✂ Skills & abilities

- **Programming Languages:** C#, C++, JavaScript
- **Frameworks & Technologies:** ASP .NET Core, Nest.js, React.js, Tailwind CSS, Next.js.
- **Databases:** SQL Server, MySQL, PostgreSQL.
- **Tools & Platforms:** GitHub, Postman, Google Colab, Microsoft Office, Notion.
- **Design & Modeling:** Figma, Canva, Draw.io
- **Competitive Programming:** Actively practicing problem-solving on platforms like Codeforces.
- **Soft Skills & Expertise:** Creativity, Critical Thinking, Leadership, Communication Skills

📁 Experience

- **Backend Engineer** (.NET) ([Gakk Media Ltd.](#)) May 2026 – Present
 - Integrated multiple **third-party payment gateways**, including **Pathao Pay**, **City Bank**, and **PayWall**, for secure and reliable payment processing.
 - Built and implemented the complete **CMS** platform for managing **products**, **vouchers**, **regions**, **partners**, banners, and catalogue operations.
 - Implemented **region-wise product** alignment and **third-party order API** integration for regional product management.
- **Software Engineer** (.NET) ([Snowtex Group](#)) Oct. 2025 – Apr.2026
 - Added **Turnstile CAPTCHA** protection to reduce bot traffic and secure user authentication.
 - Implementing **business logic** and **refresh token-based authentication** for secure backend systems.
 - Resolved major software defects, significantly enhancing website stability and performance.
- **Software Engineer Intern** (.NET) ([Symphony Softtech Ltd.](#)) July 2025 – Sept. 2025
 - Developed REST APIs and backend services using **.NET Core**.
 - Developed **secure Documentation Management System** with **RBAC**, and **version control**.
 - Gained practical full-stack , database design, secure coding and teamwork skills.

📁 Projects

- **Document Management System (DMS)** [GitHub](#)
 - **Tech:** ASP.NET Core MVC (9), ADO.NET, SQL Server 2022, JWT, RBAC
 - Developed a **RBAC** with secure **JWT token** and granular **upload/approval** permissions.
 - Implemented document **version control**, **approval workflows**, and **audit logging**.
 - Built admin features for user (**CRUD**), access control, and compliance monitoring.
- **Employee & Payroll Management System (HRMS)** [GitHub](#)
 - **Tech:** ASP.NET Core Web API, LINQ, SQL Server
 - Developed **employee management** features for maintaining employee records, departments, positions, and employment status.
 - Implemented **salary management** with salary revisions, deductions, bonuses, and validation.
 - Automated **monthly payroll processing** with tax and deduction calculations and payroll reporting using SQL Server.
- **Movie Database System** [GitHub](#)
 - **Tech:** ASP.NET, SQL Server 2022
 - Implemented user login and registration with secure **authentication** and **authorization**.
 - Developed movie management features including adding, viewing, deleting, searching, and displaying movie details.
 - Implemented user ratings, reviews, favorite movies, and watchlist functionality.

🎓 Education

- **BSc in Computer Science** | [American International University-Bangladesh \(AIUB\)](#)
 - CGPA: 3.87
 - Honors: **Dean's List (5x)**, Academic Scholarship
